

MEPAT

CORPORATE
INFORMATION

*Metal solutions driven by precision
and industrial intelligence.*

With over 40 years of specialized experience in the manufacturing of metal structures and high-precision components for demanding industrial sectors.

Our corporate philosophy is built on quality excellence, technological innovation, sustainability, and a strong commitment to customer satisfaction.

WHO WE ARE

SECTORS OF ACTIVITY

Consolidated track record in sectors such as:

- **Railway**
- **Electromedical**
- **Ticketing and electronics**
- **Urban furniture**
- **Other industrial sectors**

With a high level of specialization in the manufacturing of structures, metal racks, enclosures, and all types of metal frameworks, also applicable to the naval and defense sectors.

*Technical expertise, flexibility,
adaptability, and innovation.*

*Certified welding EN 15085 – aluminum,
carbon steel, and stainless steel.*

We have highly qualified machinery and personnel to carry out:

- TIG and MIG welding, **certified according to EN 15085.**
- Laser cutting, CNC bending, machining, industrial painting (outsourced), and assembly.
- Production in aluminum, steel, stainless steel, brass, copper, and more.
- Comprehensive management with **SAP B1, QCLICKSENSE, RPA, EDI...**
- Internal quality control and full product traceability (SGM ISO 9001).

Scope of the certificate
ZE-16083-01-00-EN15085-2017.0231.005

TECHNICAL CAPABILITIES

VALUE PROPOSITION

Our experience in manufacturing metal structures and racks perfectly aligns with the requirements of any sector.

Our know-how enables us to provide solutions for sectors such as railway, electromedical, industrial, naval, and defense, among others. We also deliver products suitable for saline environments, thanks to previous collaborations with Maritime Rescue.

We also have extensive experience in the manufacturing and installation of control stations and consoles in airports, as well as telecommunications products, control desks, panels, fronts, and frameworks for telecom equipment.

*Full adaptability and know-how
for any sector.*

*We turn your challenges
into tangible solutions.*

We provide flexibility for medium and short production runs, rapid response times, and a collaborative approach to delivering customized, design-based solutions.

Commitment to quality

We adhere to the highest standards through our quality system built on certified processes.

Our Lean approach drives continuous efficiency improvements and error reduction, strengthening client confidence.

PRODUCTS AND SERVICES

SUSTAINABILITY AND INNOVATION

We have integrated solar energy into our facilities for the past six years, automated key processes, and promote sustainable practices at every stage of production.

Digitalization is part of our DNA.

By 2026, ISO 14001 certification is planned, along with measurement and action plans to reduce our carbon footprint.

*Committed to building
a responsible future.*

MEPAT

*Building trust and commitment
with our clients.*

We have earned the trust of leading companies in the railway, electromedical, and industrial sectors.

As dedicated suppliers and partners, we align with our clients' vision and objectives, providing value that drives mutual growth.
